

Right page

210 mm
216 mm

 **PLEASE NOTE:** Ensure you submit all pages separately but in one PDF-file. Everything will be all right as long as you submit the pages in the right order. And please don not submit a spread (pages next to each other).

Template A4 Landscape

Open format: 594 x 210 mm
Closed format: 297 x 210 mm

 You can use this file as an extra layer in your layout programme.
Do not forget to make our template invisible or to delete it before you save your final PDF, or JPG with high a resolution.

Format size to be submitted (303 x 216 mm)

Finished size + 3 mm cutting margin (bleed)
It is advised to let the background and all of the images run through to this edge.
This ensures that your printing can be cut neatly and this prevents a white edge around your print.

Finished size (297 x 210 mm)

Your printing will be cut on these dimensions. This format will be the final size and will be delivered to you.

Safe zone (4 mm)

Please make sure you keep your important images and text 4 mm clear of the cutting edges. This prevents a possible cut in the important parts, or that the images are so close to the edge that it results in a sloppy design.

297 mm
